## ingredient highlights

- Eucalyptus Radiata: Primarily an essential oil for the respiratory system, it has good anti-catarrhal properties. It is a powerful expectorant and works well to thin mucus.
- Tea Tree: Unlike antibiotics, Tea Tree has been shown to not kill germs indiscriminately, but to identify and kill the destructive bacteria while leaving the friendly bacteria needed to stay healthy.
- Ravintsara: One of the most versatile and indispensable essential oils; there is little it can't do. Potent, yet safe and gentle. The chemical composition of Ravintsara is simple, and without any specific compound that makes its smell.
